

# Radio UNE Playlists (1973)

THE RADIO PLAY LISTS are designed as follows:-

The A list includes those records which are established hits,

The B list includes records which are deserving of frequent air play but are not yet hits. There is no numbering in terms of priority - the numbering is only for ease of handling by the announcer.

The album playlist which we try to keep fairly well stocked gives you a chance to hear other tracks from your favourite artists.
